Dear Enid and Chal:

As you know, each year on February 18, we have celebrated the birthday of Illinois State Normal University. On that day in 1857, Governor Bissell signed a bill passed by the legislature creating an institution for the preparation of teachers in the State of Illinois.

On this, our 104th birthday, we are having an educational symposium in the morning on the controversial teaching machine and on an issue of current interest. At 12:30, there will be a luncheon in the Ballroom of the University Union at which time Governor Otto Kerner will address the group. If it should be convenient for you to be with us on this occasion, we would be happy to have you as our guests.

This letter is to ask you to hold the date of February 18. If you find that you have the time free and can join us on this occasion, will you either drop me a note or call my secretary, Mrs. Dorothy King, at 823-8211, extension 406, and further information and tickets will be sent to you.

Dear Dr. Stolurow:

In behalf of the ISNU Alumni Association I want to express our thanks for your participation last Saturday in our Founders' Day program.

We have received many fine compliments on the excellent presentation you made on "Teaching Machines". It seems you have created considerable more enthusiasm and interest concerning teaching machines, here on campus, than was evident before your lecture Saturday. I understand several members of the education and psychology departments plan to pay you a visit at the University of Illinois in the very near future.

I was very glad to have had the opportunity of meeting you and hearing at least a part of your fine lecture.

Your part in making Founders' Day a big success is deeply appreciated.

Sincerely,
